CaseWorX Release Notes

Version: 3.5.0.112

Release Date: October 22, 2021

Enhancements:

- **New Field – Drug Screen Widget**
  - New field in the parent record that allows the user to enter the number of substances tested in the drug screen.

- **New Dependents Subwidget – Child Court File Number**
  - This subwidget in Dependents Case widget displays the case numbers to which a dependent is assigned in the Family Linking feature. When a case is created in Case Creation and a dependent is linked to that case, the case number will automatically display in this subwidget for the linked dependent.

- **New Dependents Subwidget – Permanency**
  - Fields available in Permanency subwidget:
    - Reason for Non-reunification
    - Case Plan for Permanency
    - Permanency at Close of Case
    - Final Permanency Date
    - Permanency Initiated
    - Permanency Initiated Date
    - Permanency at Discharge from court
    - Notes

- **New Fields in Dependents > Custodians subwidget**
  - Custodian ID Number
  - Parent's DOB
  - Gender
  - Race/Ethnicity
  - Email
  - Number of Children
  - Adjudication Status
  - Case Number
  - Participation Status
  - Is custodian in drug court?

Fixes:

- **Dependent Custody Status** – Fixed bug that prevented user from saving a custody status change without an end date in the record.
- **Participant Financial Summary Report** – Fixed bug that was only allowing report to be run for active participants.
