- (a) Certified juvenile intervention court programs operating in Mississippi may qualify for state funding. The source of the funding comes from a bill passed by the Mississippi Legislature during its 2004 Regular Session. The purpose of this funding is to provide funding to all certified juvenile intervention court programs operating in Mississippi. Distinct guidelines and standards have been created by the State Intervention Courts Advisory Committee and must be met by the juvenile intervention court program in order to receive and maintain annual funding. Failure to meet these guidelines and standards can result in the loss of funding for a juvenile intervention court program.
- (b) Any new juvenile intervention court seeking access to state intervention court funds must have received a certificate of approval or a provisional certificate of approval as a certified intervention court program through the AOC.
- (c) Any established juvenile intervention court seeking access to state intervention court funds must have received a Certificate of Approval during the re-certification cycle immediately preceding the request for state intervention court funds.
- (d) Any juvenile intervention court that is not certified by the AOC, or an applicant whose plan of operation does not comply with the requirements of certification under these rules, shall not receive a favorable review or recommendation from the AOC on any application for funding of services from state, federal, or private funding sources.

### Section 22 Fiscal Management Requirements

  - (2) must establish written procedures concerning the receipt of and accountability of fees collected.
  - (3) must establish a Local Juvenile Intervention Court Fund and/or a separate budget department within the County or State Treasury, maintained by the County or Municipality's fiscal officer. - (6) State or local juvenile intervention court monies may be used to reimburse a time-apportioned percentage of salary of a non-juvenile intervention court employee for the performance of additional, after-hours duties, that are not normally part of the employee's job description, who is receiving a full-time salary elsewhere.
  - (7) In accordance with Miss. Code Ann. §43-21-205, no court costs shall be charged against any party to a petition. Juvenile Intervention Court is an extension of the Youth Court; therefore, no participation fee may be charged to the parties.
  - (8) A certified juvenile intervention court program may allow juvenile intervention court staff members to accept monies. If a certified juvenile intervention court program chooses to accept monies directly, the certified juvenile intervention court must:

  - (d) It is the responsibility of the juvenile intervention court coordinator to ensure the certified juvenile intervention court is operating within its annual budget approved by the AOC.
  - (e) Each juvenile intervention court program is responsible for maintaining a monthly file of all documentation that ties the expenditures to the monthly report. This file must be readily available for review by AOC.
