

# REFERRAL ACTIVITY REPORT

(REVISED 12/15/2011)

The purpose of this report is to provide a listing of Referral Types entered during the selected time frame.

The Referral Activity Report can be run for a specific Date Range, County or Judicial district and Intake Type (Figure 1). If multiple jurisdictions (i.e. Judicial districts) are selected, each jurisdiction will be displayed in a separate section. Courts can only see reports for the county or districts in which they have jurisdiction. Above each field, the User may select all types for each field.

## REPORT SECTION

The report is divided into sections according to the Intake Type. Each report section lists the Reasons for Referrals entered for the selected date range. The Total Referrals column gives the total number of referrals entered for that reason. The Total Proved column (Figure 2, Yellow) gives a county of the referrals for that reason that were adjudicated at the hearing. The Total Not Proved column (Figure 2, Green) counts the number of referrals for that reason that were dismissed at adjudication. The Total Pending column (Figure 2, Blue) counts the number of referrals for that reason that have been included on a petition but not yet adjudicated. The Total Handled Informally column (Figure 2, Red) counts the number of referrals for that reason that were handled informally. The totals in the last four columns will total the number in the Total Referrals column for that Reason for Referral.
